## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's amendment filed 19 July 2004 amends claims 1-3. Applicant's amendment has been fully considered and is entered.

### ***Double Patenting***

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-4 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-4 of U.S. Patent No. 6,697,949. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant application claims the same method for allowing a consumer to access an advertiser's location over a global communication network from a consumer's computer as the '949 patent without adding any patentably distinct features. The only difference in the claims is in the instant application the claims have additional language to specify that the predetermined location is the advertiser location. It would have been obvious to one of ordinary skill in the art at the time the invention was made that the predetermined location was the advertiser location because the preamble of claim 1 of '949 patent states that the method is for allowing a consumer to access an

advertiser's location over a global communication network, and so one of ordinary skill in the art would have recognized that the predetermined location was in fact the advertiser's.
